

Investigaciones recientes relacionadas con la avifauna Mesoamericana

Compiladas por Dr. Gerardo Avalos, Editor

Arendt, W. J., Tuckfield, R. C., Martínez-Sánchez, J. C., Reidy, J. L., Thompson III, F. R., Wunderle Jr, J. M., y Zolotoff, J. M. 2020. Avian Community Density and Distribution Patterns among Nicaraguan Conventional and Organic Shade-Coffee Plantations. *Agricultural Sciences* 11(01), 27-53.

Aximoff, I. A., Soares, H. M., y Bernadello, G. 2020. *Acnistus arborescens* (Solanaceae): an important food resource for birds in an Atlantic Forest site, Southeastern Brazil. *Rodriguésia* 71.

Bath-Rosenfeld, R. J. 2019. Engaging Citizen Scientists to Determine the Importance of Non-Agricultural Fruiting Trees for Seed-Dispersing Frugivores on Working Landscapes in Southern Costa Rica (Doctoral dissertation, Northern Arizona University).

Cadena, C. D., Cuervo, A. M., Céspedes, L. N., Bravo, G. A., Krabbe, N., Schulenberg, T. S., ... y Fjeldså, J. 2020. Systematics, biogeography, and diversification of *Scytalopus tapaculos* (Rhinocryptidae), an enigmatic radiation of Neotropical montane birds. *The Auk* 137(2): ukz077.

Dayer, A. A., Silva-Rodríguez, E. A., Albert, S., Chapman, M., Zukowski, B., Ibarra, J. T., ... y Sepúlveda-Luque, C. 2020. Applying conservation social science to study the human dimensions of Neotropical bird conservation. *The Condor*, DOI: 10.1093/condor/duaa021

Diehl, R. H. 2020. Timing of migration shifts *en masse*. *Nature Climate Change* 10(1): 18-19.

Estrada-Carmona, N., Martínez-Salinas, A., DeClerck, F. A. J., Vélchez-Mendoza, S., y Garbach, K. 2019. Managing the farmscape for connectivity increases conservation value for tropical bird species with different forest-dependencies. *Journal of Environmental Management* 250: 109504.

García, C. D. G., y Prado, S. L. 2020. Modelamiento de la distribución potencial de *Corapipo leucorrhoea* (Pipridae) en el valle alto del Magdalena, Tolima, Colombia. *Biota Colombiana* 21(1).

Hayes, W. M., Fisher, J. C., Pierre, M. A., Bicknell, J. E., y Davies, Z. G. 2020. Bird communities across varying landcover types in a Neotropical city. *Biotropica* 52(1): 151-164.

Juárez, R., Chacón-Madrigal, E., y Sandoval, L. 2020. Urbanization has opposite effects on the territory size of two passerine birds. *Avian Research* 11(1): 1-9.

.....

Karp, D. S., Echeverri, A., Zook, J., Juárez, P., Ke, A., Krishnan, J., ... y Frishkoff, L. O. 2019. Remnant forest in Costa Rican working landscapes fosters bird communities that are indistinguishable from protected areas. *Journal of Applied Ecology* 56(7): 1839-1849.

Malpica, C., Sainz-Borgo, C., Ayala, M., y Lentino, M. 2020. Ciclos anuales de colibríes (Aves: Trochilidae) en un bosque nublado, Parque Nacional Henri Pittier, Venezuela. *Revista de Biología Tropical* 68(1): 260-275.

Neate-Clegg, M. H., y Şekercioğlu, Ç. H. 2020. Agricultural land in the Amazon basin supports low bird diversity and is a poor replacement for primary forest. *The Condor* DOI: 10.1093/condor/duaa020

Pageau, C., Vale, M. M., de Menezes, M. A., Barçante, L., Shaikh, M., S. Alves, M. A., y Reudink, M. W. 2020. Evolution of altitudinal migration in passerines is linked to diet. *Ecology and Evolution* 10(7): 3338-3345.

Pérez, P. E. O. 2020. Uso de hábitats alterados por aves insectívoras de sotobosque en un gradiente ambiental y su potencial para la conservación en Nicoya, Costa Rica. *UNED Research Journal* 12(1): e2803-e2803.

Pinto, F. A., Clevenger, A. P., y Grilo, C. 2020. Effects of roads on terrestrial vertebrate species in Latin America. *Environmental Impact Assessment Review* 81: 106337.

Prieto-Torres, D. A., Lira-Noriega, A., y Navarro-Sigüenza, A. G. 2020. Climate change promotes species loss and uneven modification

of richness patterns in the avifauna associated to Neotropical seasonally dry forests. *Perspectives in Ecology and Conservation* 18(1): 19-30.

Pollock, H. S., Jones, T. M., Tarwater, C. E., Nishikawa, E. T., y Brawn, J. D. 2020. Rapid colonization and turnover of birds in a tropical forest treefall gap. *Journal of Field Ornithology*, DOI: 10.1111/jof.12328

Rosenberg, K. V., Dokter, A. M., Blancher, P. J., Sauer, J. R., Smith, A. C., Smith, P. A., ... y Marra, P. P. 2019. Decline of the North American avifauna. *Science* 366(6461), 120-124.
